

# Little Doge

## WHITEPAPER

Little Doge is a community driven DeFi Coin found on the Binance Smart Chain(BSC).

The Developers have combined the best Aspects of other Coins into one, extraordinary Protocol.

The Results are an unique innovative Coin with never seen before Tokenomics.

The Development team has focused on creating a professional Protocol backed by a strong Contract and also by an even stronger Community.

Our Protocol takes care of common Issues found in other Coins.

We included a Whale Protection Function called Big Doge (The Kraken), a Buy Back and Burn feature.

This Feature is supporting the Coin through distributing the Marketing Funds to the Holders.

Little Doge imposes an 11% Tax on all Transactions,  
6% is stored for the Big Doge Buy Back Function (The Kraken),  
3 % is for Marketing and 2% is redistributed to all Holders.  
These percentages are carefully choosen for an organig growth.

# ABOUT US

Little Doge started as an Idea to create a Coin that had a solid Foundation built on trust and Transparency.  
Solid Tokenomics would offer a better Solution than other Bad Coins out there.  
It went faster from Idea to Reality than anyone could have imagined.

The Little Doge Team is a successful Group of Crypto Lovers with huge Experience and many different Backgrounds.  
The Team is built like a Business - with Departments and Managing Partners.

While most Members engage in multiple Tasks, some of them are Specialist in their own Area.

Little Doge has Members who specialize in Contracts, Marketing, Business Development and Social Media.

The hardest working Members are our Moderators across all Social Media Channels answering all Questions and supporting the Community.

This is not just another Meme Coin.

Little Doge is a Family.

The Goal is to make Gains for Everyone.

The Development Team knows that Little Doge will be printed in the Crypto History Books as the „different“ Type of Dog Coin.

# COMMUNITY

The Family that has formed in the Little Doge Community has already surpassed most Coins.

The Team has dedicated a large Portion of their Time for Community developments.

This Includes :

- Clear communication regarding the Marketing and Future Plans
- Transparency with the Tokenomics
- Creating a welcoming Atmosphere to all new Members

A Member of the Little Doge Team can be found almost at any Time in the Telegram Group Chat or in the Voice Chat.

The Team encourages Question because understanding Coin and Tokenomics results in a stronger Bond between new Investors and a stronger Community!

United We Stand - Divided We Fall!
